PROBATION STATUS:

This means that those dancers have demonstrated some of the skills and drive needed to be on that team but may not yet be ready. This is an opportunity for the dancer to bring up the skills needed to be on the team. Teachers for each team will let dancers and parents know what they will need to work on between now and **September 30th**. During this time tuition and fees will be due as if you are fully on the team. Once a decision is made we can adjust your account if needed. The hope is that those on probation work hard between now and September 30th to bring their skills up to meet the team.
